Dr. Allen P. Borger
Chas. Pfizer & Co.
Groton, Connecticut 06340

Dear Allen,

At the suggestion of my associates, I have requested the Formulary Committee of Metropolitan Hospital to allow a 1 year trial of doxepin (Sinequan) in the clinical units. If agreeable to you, would you either ask your representative to make supplies available to the pharmacist, Mrs. Cruzado, or deliver them to my office. I would suggest 500 capsules each of 25 and 50 mg to start.

The report of our doxepin - chlordiazepoxide comparison is complete and is in final typing. The doxepin EEG data is complete and is in its initial draft. Both will be available for distribution to our staff by the year's end.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
