

November 9, 1966

Dr. Philip B. Bradley  
The Medical School  
Birmingham 15, England

Dear Philip,

Thank you very much for your letter of November 3. The draft agreement is satisfactory. You are to be commended in negotiating this instrument.

I recognized that the manuscripts required some work but felt it was more important to send them on to you at the time. If you wish to send any back to me for my editing, I will be glad to do what I can.

I checked in my files and did not find the legends for the figures of Vojtechovsky, nor can I recall having seen them. Your letter to him is sufficiently explicit and I am sure he will respond.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
