

September 21, 1964

Dr. C. M. Rosenberg
Netherne Hospital
Coulsdon, Surrey
England

Dear Dr. Rosenberg:

On September 18th, we filed a petition to classify your application on a first preference quoto basis, with the immigration authorities in St. Louis. A copy of that letter is enclosed for your information. Within the next few weeks, we shall follow this inquiry with others in the hope of expediting an early preference visa. I have also written to Drs. Farnan and Carr and will complete the processing of your application within the next few weeks.

It would be appropriate, I think, for you to make inquiries at the consulate office in London regarding your visa status. In general, the Bureaucratic Officials who are responsible for the judgments necessary in this instance are most responsive to stimulation from the outside.

Good Luck!

Sincerely yours,

Max Fink, M.D.
Director
