

May 10, 1993

Kenneth R. Kaufman, M.D.
8635 West Third Street, Suite 985W
Los Angeles, CA 90048

Dear Dr. Kaufman,

Thank you for the excellent case summary of your patient with seizure disorder and surgical lesion with suicidal ideation warranting ECT. I look forward to the outcome.

I am not sanguine about a position at this University but I am willing to send your records for review in our Departments. Please send a copy of your c.v. and three or so reprints that may be useful. [The case report was incomplete-- only page 51 was enclosed.]

Dr. Janowsky at UNC in Chappel Hill is advertising for someone trained in ECT. You may wish to write to him.

Good luck with your patient.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
and Neurology
