Steven Zornetzer, Ph.D.,
Department of Neurosciences,
University of Florida,
Gainesville, Florida 32601.

Dear Steven,

We have submitted your paper to the publisher, and both he and I believe that Figure 10 (a photograph of a brain slice) will probably come out poorly. Is it possible to have that rephotographed to provide an image with greater contrast?

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
