

October 28, 1966

Dr. R. W. Stacy
Dept. of Surgery, UNC Medical School
N. C. Memorial Hospital
Chapel Hill, North Carolina

Dear Dr. Stacy:

Thank you very much for the kind invitation of the organizing group to join the Society of Biomedical Computing.

In my work at Washington University during the past few years, I found that many members of their staff were extremely helpful. Dr. Donald M. Shapiro, Assistant Director of Washington University Information Processing Center in charge of Project Services, Sever Hall, Lindell and Skinker, St. Louis, Missouri 63130, has been actively involved in this work with me and I would like to suggest that he be invited to participate in the formation of this society. I believe his contributions could be of considerable interest.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
