Dr. Bernard Loev
Smith Kline & French Laboratories
1500 Spring Garden St.
Philadelphia, Pennsylvania 19101

Dear Dr. Loev,

It was a pleasure to discuss your interest in THC derivatives and I do hope that you can arrange to make supplies available for EEG studies this fall.

This last week, I visited the University of the West Indies in Kingston to review their cannabis study program for NIMH. I met Professor W. R. Chan and Dr. K. E. Magnus, and they described two unusual derivatives of their hemp plant which they have isolated. Their formulae and a citation of a similar product isolated by Obata and Ishikawa are attached for your interest.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
