Berkeley, California 94704

Dear Bob,

It was a pleasure meeting with you again in Lexington and I very much enjoyed discussing your study program. As it is unlikely that I will be in California in the near future, I am taking this opportunity to request copies of any reports from your center which may be related to psychoactive or anti-anxiety agents.

Incidentally, your description of a two-point task as an index of drug effect, was a most interesting suggestion.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
