Dr. Barbara Sonowski  
Hoffman LaRoche  
Nutley, New Jersey

Dear Barbara,

Dr. Itil and I have reviewed the notes for the CDT exhibit, and have made a few corrections. Please note the addition to Table IV, correction in Table V, and deletion on page 9.

We have reviewed our EEG data and would like to add the information which we have not published previously, but which was analyzed at the time of the original studies. Please add page 9A to the presentation, and to any texts of the report.

Thank you for your fine editing.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
