

October 24, 1968

Dr. George M. Simpson
Rockland State Hospital
Orangeburg, New York 10962

Dear George,

Thank you very much for the curriculum vitae of Dr. Hana. We, of course, have been interested in liberating some of the Czechs and have appointed two in neurophysiology. One will be here in November and the second in April 1969.

Since I cannot fund another position today, I have taken the liberty of sending her curriculum vitae to Dr. Strobos who is Professor of Neurology at this Institute.

Thank you for thinking of me.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
