Dear Ed,

Your question regarding the proof of the abstract of your paper "Role of Cholinergic Mechanisms in States of Wakefulness and Sleep" can be easily clarified. The complete article is to appear as part of the volume on Anticholinergic Hallucinogens in *Progress in Brain Research*, and you have already received galley proofs of that article. The abstract will appear as part of the Proceedings of the Vth International Congress of the CINP, and you have received a galley from *Excerpta Medica*.

The volume is now completely in galley and should appear quite soon.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
