Dear Dr. Hayes,

We had submitted the formulations of the placebo of the study of OI-63 earlier. Evidently the documentation had not reached your office. We would be grateful if you would check the records at the FDA for the original submission, and trust that the data will be sufficient for the review you envision.

For the meanwhile, we have indicated that the placebo vehicle is not to be used and studies may continue using a saline (normal) control.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
