Dear Turan,

Enclosed are two copies of the EEG paper as read at the  
APA and as rejected by the *American Journal of Psychiatry*.  
These are for your files.

I do not know if you want to send it to anyone else,  
since the essential material will appear in the book by  
Laska and Kline, but we can discuss it the next time we meet.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
