

July 23, 1970

Dear Dr. Briët,

I have received your letter enquiring about a position in the Department of Psychiatry to study computer applications to electroencephalography. Your suggestion interests us, and I would be pleased to discuss it further.

Conveniently, I plan to be in Holland early next month and I suggest that you plan to meet me to discuss your questions. I will be in Oss from Thursday, August 6 to Sunday, August 9 and will be staying at the Motel Nuland. It would be best for you to call my host, Dr. Peter Fell at Organon in Oss (04120-8433, and explain that you would like the opportunity to meet me at a time most convenient to Dr. Fell and the party at Organon.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
