Dear Doctor Swanson,

I am delighted that you will be joining us and look forward to meeting you about March 6th. From my discussions with Dr. Brissenden and Dr. Don, the various arrangements for your migration seem well in hand.

I recognize that the highest priority must be given to the sustenance of your family and we will do everything we can to assist you. I believe your initial assignment will be in conjunction with our newly established program in drug abuse. We will arrange for some training and I anticipate that within a few months you will be expert in the management of opiate dependence.

I look forward to meeting you and your family. I trust your flight to the United States will be uneventful.

Sincerely yours,

Max Fink, M.D.
