

*Butaperazine*

November 15, 1963

J. Arthur Seaholm, M. D.  
A. H. Robins Company, Inc.  
1407 Cummings Drive  
Richmond 20, Virginia

Dear Dr. Seaholm:

As we suggested, we began a pilot study with butaperazine three months ago, in fourteen chronically ill psychotic subjects. We also have had a comparison control group of ten subjects.

We have observed some interesting effects and would like to continue this study in a larger group of patients, including some acute subjects. Would it be possible to obtain an additional supply of butaperazine? The amount needed is 400 pints of elixer butaperazine. Our present supply will be exhausted about December 4.

In the event that you wish any additional information, we would be pleased to have you visit with us.

Sincerely yours,

Max Fink, M. D.  
Director
