Dear Tony,

I have just returned from California and in checking my notes find that I had promised to send you the enclosed information with regard to our experience with doxepin.

I am also enclosing a sample protocol and interim report of a compound which is now undergoing study. This information is, of course, preliminary and I trust will be verified in the ongoing study.

Come visit us when you are in New York

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
