

April 28, 1988

Dr. John Waterhouse
Department of Psychiatry
Western General Hospital
Edinburgh EH4 2XU
United Kingdom

Dear Dr. Waterhouse,

Your letter of November 25 arrived (inexplicably) at the end of March, and I sent it through the Department Chairman to the professorial faculty. While we would be pleased to have you participate in one of our many research or teaching programs, present State regulations regarding appointments of outside faculty preclude our providing an appointment which has clinical (therefore reimbursable) service as the basis for an appointment and support.

The strictures which apply to a State facility do not ordinarily apply to a private hospital or university. You may wish to write to the two principal psychiatric academic centers in New York City, Dr. Herbert Pardes at Columbia University (722 West 168 Street, New York City 10032) or Dr. Gerald Klerman at the Cornell Medical College (Payne Whitney Clinic, 525 East 168 Street, New York City 10021).

My regards to Professor Hamilton.

Regrettably,

Max Fink, M.D.
Professor of Psychiatry
