

November 25, 1964

Dr. William Bryant,
Assistant Dean
University of Missouri
School of Medicine
Columbia, Missouri

Dear Dean Bryant:

Enclosed are five application forms for NIMH grants. Four of these are grants which are now at the Psychiatric Research Foundation of Missouri, including:

- 1) MH-07249
- 2) MH-08517
- 3) MH-08478
- 4) MH-08597

In addition, we have submitted a supplementary request for MH-07249. I inquired about this application, which will be considered by March Council, and it was suggested that new face sheets be submitted and this is the fifth application enclosed. With regard to this supplement, my communications were with Mrs. Eleanor Offutt in the Division of Research Grants, Mr. Sapir's office. When this is forwarded it should perhaps be forwarded to her attention.

We have been unable to reach Dr. VanMater and for this reason the training grant applications are not enclosed.

In Dr. Ulett's absence from the city this morning and following a phone call to him, I have countersigned the data forms in his behalf.

Sincerely yours,

Max Fink, M.D.
Director
