Dr. Vincent A. Joy
Director, Clinical Research
Squibb International
460 Park Avenue
New York, New York 10022

Dear Dr. Joy:

My associate, Dr. Turan Itil, of the University of Missouri School of Medicine and I are grateful for your kind letter of July 13. We are planning to be in Istanbul together during the week of August 12-15. While I believe it would be helpful to meet Dr. Alpaytac, may I suggest that we have an occasion to discuss our general program in some detail before we leave the United States on August 2?

I will call your office at the end of this week to arrange a time that is mutually agreeable.

Thank you for your interest.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
