Dr. Martin C. Sampson
Vice President - Medical Affairs
Wallace Pharmaceuticals
Cranbury, New Jersey 08512

Dear Dr. Sampson:

Thank you very much for the information you sent me regarding tybamate. Dr. Kletzkin of your Department of Pharmacology had already sent me some information on another of your compounds, Carisoprodol and I am quite interested in using one or the other in a special application in our laboratories.

I would be grateful if Dr. Rath would call me and we had an opportunity to discuss the possibility of using either compound during the period of withdrawal in narcotic addicts.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
