Dr. William Bauman  
Presbyterian Hospital  
New York City

Dear Dr. Bauman,

Thank you for your invitation to participate in the 1970 meeting of the New York State Medical Society, Feb. 8-11. The subject of computers in medicine is of interest to me, and I would be pleased to participate.

As you well know, the current use of computers in psychiatry is limited to a few research applications, but the programs now in trial use are quite interesting, so that the topic of the next 5 years can be adequately covered.

I look forward to participating.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
