E. F. Domino, M. D.  
Professor of Pharmacology  
The University of Michigan  
Medical School  
Ann Arbor, Michigan

Dear Ed:

The reference about which you are inquiring is probably from some of my earlier reports and, in general, reflects the opinion in papers numbered 4, 6, 7 and 8 from the enclosed reprint entitled "Quantitative EEG in Human Psychopharmacology:". The most recent statement is from this reprint, on page 191.

It was a pleasure chatting with you in Washington. Good luck in your decision.

Sincerely yours,

Max Fink, M. D.  
Director
