

J. Keller

March 23, 1966

Simon H. Nagler, M.D.
Chairman, Committee on the Newsletter
The Academy of Psychoanalysis
125 East 65th Street
New York, New York 10021

Dear Dr. Nagler:

Thank you for your invitation for a news item for the Newsletter. There are few members of the Academy in St. Louis and there is little formal opportunity to join in any coordinated efforts. Perhaps the following personal note may be of interest.

Dr. Max Fink has been appointed Professor of Psychiatry in the Department of Psychiatry at the New York Medical College in June. Dr. Fink has been the first Director of the Missouri Institute of Psychiatry and Research Professor at Washington University since 1962.

You may also wish to note the continuation of our collaborative language studies of LSD with Drs. Jaffe, Feldstein and Dahlberg of the William Alanson White Institute.

Best wishes for a successful anniversary issue.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
