Dear Beni,

Congratulations on your successful endeavors to establish a research center in Israel. The announcement which I received today carried two messages -- that Ezrath Nashim has a new research facility (an NMR or PETT scanner?) and that you are the new chairman of Psychiatry at Hebrew University.

The second is a real coup, considering the perception that psychiatry at Hadassah has been social psychiatry.

Good luck in your new ventures. I thank you for the announcement.

If you think that a paragraph or two in CONVULSIVE THERAPY describing your program in ECT research would be helpful, send it on.

My best to Ziona, who must be especially proud.

Sincerely yours,

Max Fink, M.D.
