Dear Dr. Gamso,

We would be pleased to participate in the NACC training sessions and can join you on October 15, or November 19, preferably at 10 a.m. The subject should most conveniently be an overview of the clinical and laboratory data of our research programs in narcotic antagonists supported by NACC. A more jazzy title is the one used by Frank Field - "Immunization Against Drug Addiction".

A more detailed report on the clinical aspects of our studies can be obtained from the project directors, Dr. Arthur Zaks (naloxone and *l*-alpha-acetylmethadol) and Dr. Richard Resnick (cyclazocine). If you wish their participation, they can be reached at my office (5 E. 102nd St., New York, New York 10029).

Thank you for your invitation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
