Mr. Don Cheetham
Smith, Kline & French Laboratories
Philadelphia, Pa.

Dear Don,

Thank you for the excellent survey of Manifestations of Dermatitis associated with 'Thorazine'. The references did include some that I had not found, and I am now, more than ever, prepared to defend the proposition which has become the subject of a court trial.

Many thanks.

Incidentally, is there any chance that you will be in New York and have an opportunity to visit our laboratories this spring ?

Sincerely yours,
