Dear Dr. Cattell:

I have received the galley of the article "Clinical Trial of Thiothixene in Schizophrenia" and have made a few corrections. I have sent it to my associates in St. Louis and they will return it to you as soon as they have had a chance to check it. The principal corrections are in the tables and, if at all possible, I would appreciate an opportunity to see a galley after the corrections are made.

Thank you very much for your prompt consideration and my best regards for the New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
