Dr. A. Cerletti
Biological and Research Division
Sandoz Ltd.
Basle, Switzerland

Dear Dr. Cerletti:

Enclosed is an abstract for your consideration for the forthcoming meeting of the CINP in Spain. This abstract reflects recent studies in our Department testing a variety of theoretical models in the treatment of narcotic addiction. The report is related to the sessions describing the pharmacological and clinical criteria of drug selection.

Thank you for your consideration.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
