Professor Mark R. Rosenzweig
Department of Psychology
University of California
Berkeley, California

Dear Dr. Rosenzweig:

It was a pleasure to hear your presentation at the recent meeting of the American Psychopathological Association. I have since completed the review which is enclosed, and wish to thank you for recalling the article by Pryor and Otis. Since I found this quire relevant, I modified the review to refer to your work.

I believe this review will appear in the *Journal of Nervous and Mental Diseases*. I will be grateful for your comments.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
