Miss Connie Hickman
c/o Computer Center
Missouri Institute of Psychiatry
5400 Arsenal Street
St. Louis, Missouri

Dear Connie,

It was nice seeing you again in St. Louis.

I have looked at the CDT - EEG material and the list of items from the rating scale. When Dr. Itil and I checked the items against one of our rating scales, the numbers and the titles generally matched, but there were some discrepancies. Since it is very important that the individual behavior be correctly matched, I have asked Dr. Itil to ask Dr. Holden to go over this with you.

Please pull out some of the sheets that you used to punch the data and spot check to see if the items are correct. When you are done checking, Dr. Holden should have a list of correct numbers and items titled so that I can go over the material carefully.

Secondly, I had picked up the two additional Denber tapes from the computer room and took them to Dr. Itil's office, meaning to take them to New York with me. But, I forgot to take them. I would be grateful if you would ship them to me.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
