Dr. Dean J. Clyde
Biometric Laboratory
Room 307
250 Bird Road
Coral Gables, Florida 33146

Dear Dean:

I should like to join you in your course and my application is enclosed.

Would you be able to set aside Tuesday, December 10, for us to go over the Hillside data? Within the next ten days, I will send you a summary of my explorations and some of the plans that I have. It should then be possible for us to spend the day profitably. If this is agreeable, I have submitted my reservation request to the University Inn and will arrive Monday evening, December 9.

Sincerely yours,

Max Fink, M. D.
Director
