Dear Fritz:

Enclosed is the original typescript of "Efficacy and Safety of Induced Seizures (EST) in Man" for your consideration for Comprehensive Psychiatry. I understand that you will not publish the citation list, and I have added a footnote to the effect that references can be obtained from the author.

I enclose the reference list as well. If I can afford it, I think I would like to print the citations using the standard citation format of C.P., and to have complete reprints made up. I think 300, with covers will be useful. Can you get me a quotation on this arrangement?

Thank you for your consideration.

Sincerely,

Max Fink, M.D.
Professor of Psychiatry
