Stanley Einstein, Ph.D.
Executive Director
Institute for the Study of Drug Addiction
680 West End Avenue
New York, New York 10025

Dear Stan:

The potential importance of the narcotic antagonists in both the treatment and prophylaxis of opiate use should make a presentation of the available data a matter of high priority. While I do not believe the College will be able to find the travel costs for the meeting, I could suggest you list my presentation and between us, we should be able to find some solution. If not, the mere listing will, at least, give the possibilities some visibility, and enhance the historical record of the meeting.

As a title: "Antagonists in the Prophylaxis and Treatment of Opiate Dependence".

Good luck.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
