

October 1, 1964

Dr. Harry Neubauer
Missouri Institute of Psychiatry
St. Louis, Missouri

Dear Harry:

You joined us when the Institute had just been born and was still in its swaddling clothes. You struggled as we tried, and I believe succeeded in rushing through our suckling and waddling periods. I think you have seen, during the last eighteen months, the Institute learning rapidly and perhaps creatively producing information on its own.

I am most grateful for your patience, understanding and helpful participation during these difficult periods. I am very proud of the work that you, Sam and Turan have accomplished and hope that the Institute will be able to successfully build on this base in the years to come.

As the first "graduate" of the Institute, I look forward to following your career with a great deal of interest. With all best wishes and my personal thanks.

Sincerely yours,

Max Fink, M.D.
Director
