Miss Janet Grone
Delphos, Ohio

Dear Miss Grone,

Your letter to Dr. Taylor was sent to me for reply, since Dr. Taylor is now in the military service and is unable to continue his brilliant work. The war in Viet-Nam, which is so destructive of lives, is also destructive of other good things in our society-- including research.

The best has already been published, and there have been no other studies. I hope that as soon as the military releases Dr. Taylor, he will return to carry on this important work.

Good luck in your studies.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry

P.S. For a good discussion of schizophrenia, may I suggest you request any textbook of psychiatry, particularly the Comprehensive Textbook of Psychiatry, edited by Freedman and Kaplan, published by Williams & Wilkins, 1968.
