Dr. Gardos  
Boston State Hospital  
Boston, Massachusetts 02129

Dear Dr. Gardos:

Enclosed is a note to George Zwilling regarding the technical aspects of the analysis of your recordings. The data is of good quality and we have paper and card outputs for each record. We will be able to complete processing of this data in accordance with requests made in the note to Mr. Zwilling.

We would be pleased to analyze the records as each tape is collected, so that we can have the data available when you wish to review it. If you wish to have the analyzed records sent to you before the study is completed, we will arrange it.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
