Dear Drs. Joyce and Iver:

I want to thank you for your contribution to the issue of *Seminars in Psychiatry*. I am grateful for your cooperation, and I am pleased to make available 100 reprints of your contribution at my expense.

If you have already ordered reprints, you may wish to change your order with this in mind.

I have your suggestions for title changes for the ECT meeting in April, and as soon as I have an opportunity to review these with the program committee, I will answer your letter more specifically.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
