Mrs. Hannah Mosquera
Hillside Hospital
P. O. Box 38
Glen Oaks, New York

Dear Hannah:

During the past few days Turan Itil has begun an analysis of some records comparing the analyzer write-out for different parts of the head. It would be helpful to us, if we could discuss the results of your study. Would you send me whatever information you have completed in comparing different lead combinations?

Sincerely yours,

Max Fink, M. D.
Director
