Biometric Laboratory
The George Washington University
Room 618
1145 Nineteenth Street, N.W.
Washington 6, D.C.

Dear Bob:

Thank you very much for the list of study patients at Manhattan State Hospital. We will analyze the initial set of data to determine if the groups are comparable as to their EEG characteristics. We will select various items from the EEG analysis and then arrange for multiple discriminant analyses.

Thank you for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
