

August 21, 1965

Mr. Harold E. Childers, President  
Bio-physical Research Instruments, Inc.  
P. O. Box 36010  
Houston, Texas 77036

Dear Harold:

We have become very much interested in analog devices with digital output that may be applied to EEG analysis. It would be very helpful to us if on one of your trips through the Midwest you could plan to visit here for that would give my associates and myself the opportunity to discuss the feasibility of your equipment for our application. If this is not possible, I plan to be in Houston for some meetings in October and will call on you at that time.

If you are coming through the Midwest, please plan to visit with us.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
