Miss Stockert, Chief Pharmacist  
Monmouth Medical Center  
Long Branch, New Jersey

Dear Miss Stockert:

Recently, I visited the Monmouth Medical Center on an IBM seminar. Many aspects of the program were impressive, but the most immediately valuable was the up-to-date formulary. Our Formulary Committee has struggled with the need and desirability for a detailed compendium of available drugs.

If a recent copy of the formulary print-out is available, we would be most grateful.

Many thanks.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
