Dr. William R. Tabor  
Director, Medical Research  
A. H. Robins Company  
1407 Cummings Drive  
Richmond, Virginia 23220

Dear Bill,

I do not know how successful the presentation was yesterday, but I enjoyed the opportunity to meet Dr. Funderburk and to discuss with him and your associates the present status of the EEG programs. I was prepared to discuss a specific project, but that will wait until you can clarify the details.

I am writing to confirm that I am interested in undertaking a pilot study of fenfluramine as an anorexogenic agent in a small number of volunteers and would be pleased to receive the necessary forms and some descriptions of the available experience so that I can prepare a suitable protocol.

Thank you once again for your visit.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
