Dr. Leo Hollister  
V. A. Hospital  
Palo Alto, California 94304

Dear Leo,

Enclosed is a draft copy of the presentation for Pharmacology for Physicians. I have tried to make it less technical, and feel that I may have succeeded in the second half only. It represents the synthesis of the work of the past decade from many laboratories and while I believe it to be true and accurate, there is much that will raise some eyebrows.

If there are portions that are unclear, or changes you would wish to make, please feel free to suggest them Or, if acceptable, please send on to Dr. Modell.

Many thanks for the invitation and the opportunity to reformulate these thoughts.

Sincerely yours,

Max Fink, M.D.
