Dr. William Bunney, Director
Division of Narcotics & Drug Abuse
National Institute of Mental Health
Rockville, Maryland

Dear Bif,

I am pleased to submit an application for the study, *Physiological Effects of Chronic Cannabis Use in Male Jamaicans*, for your consideration. This application complements the study of chronic cannabis use in Greece which is now in progress, and for which an extended application was submitted last week.

I have sent a copy of this proposal to Mr. R. J. Gradwell of the Contracts Management Branch of the Institute, and to Bob Petersen.

My thanks for your cooperation and interest.

Sincerely yours,

Max Fink, M.D.
Executive Director
