

July 30, 1965

To whom it may concern:

Mrs. Pamela R. Kirschbaum was a member of my staff from December 1, 1964 to May 28, 1965 and during this period worked as editorial assistant. She assisted me in the preparation of manuscripts for publication, established descriptors for psychiatric documents, and provided bibliographic sketches.

At all times I found her dependable, reliable and a bright assistant. She is intelligent and able to resume responsibility.

She left this Department at the time of her marriage and is recommended highly for any position for which she applies.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
