

June 15, 1965

Dr. Al Silverman
Professor of Psychiatry
Rutgers University School of Medicine
New Brunswick, New Jersey

Dear Al:

It was kind of you to devote so much time to acquaint me with your program. During the return trip I dwelt on the unusual opportunity your facility presented, and reflected that with your enthusiasm, optimism and dedication, the Department and the Medical School at Rutgers will succeed handsomely. Indeed, the picture of a medical facility as an integral part of a university campus in a setting reminiscent of the leading universities of Europe, is very attractive.

My best regards, and again my thanks for your interest during my visit.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
