Dr. Frank J. Ayd, Jr.
6321 York Rd.
Baltimore 12, Maryland

Dear Frank,

It was a pleasure to talk to you in Puerto Rico about your newsletter. As I indicated, we are completing some studies and I am taking the liberty of enclosing preprints for your information.

The thiothixene report is in press in *Current Therapeutic Research*; clinical laboratory test standards in the *Journal of New Drugs*; the LSD report has been published in the *Archives*; and the fluphenazine report is still being modified but the draft that I am enclosing will give you sufficient information concerning the state of our studies.

Good luck in your venture and my best wishes for the New Year.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
