Dr. Roger P. Maickel, Ph.D.  
Professor of Pharmacology  
Indiana University  
Medical Sciences Program  
Myers Hall, Room 360  
Bloomington, Indiana 47401

Dear Dr. Maickel:

On November 5, 1969 we sent a copy of "Electrographic Effects of Diacetylmorphine (Heroin) and Naloxone in Man" for your consideration for the new journal Neuropharmacology and Psychopharmacology.

It must be very difficult to launch a new journal. Nevertheless, we would like to ask whether this manuscript is acceptable or whether we should submit it elsewhere.

Thank you again for your invitation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
