Mrs. Elsa Morrison  
Electroanesthesia Department  
Hewlett-Packard Company  
Box 301  
Loveland, Colorado

Dear Mrs. Morrison:

Thank you very much for the brochure and bibliography on Electroanesthesia which you recently sent to me. There are a number of references which are of special interest to us and would be helpful in deciding whether further studies with this instrument are to be undertaken. If these are in your files, perhaps copies could be made available to this laboratory?

Citations 5, 10 and 36 are primary sources for our interest. Citations 27, 34, 46, 65, 80, 87, 95, 103 and 143 are of special interest.

As you can note from these citations, we are particularly interested in the prolonged effects, if any, on the electroencephalogram.

Thank you for your assistance.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
